

WHAT OUR CUSTOMERS ARE SAYING:

"The most exciting part is walking by on a sunny day and hearing that meter whir backwards."

"My experience with Sunergy was totally favorable. The staff were great. I have just reviewed the first six months performance of the system and the financial analysis from Sunergy appears to be quite accurate. It feels so good to be able to do something about greenhouse emissions ourselves."

"This was a new construction site with limited roof space. Sunergy worked with us to put the system in the location we wanted when other's had said that it couldn't be done!"

ABOUT US

Sunergy Systems delivers total, turn-key sales, installation and support solutions for residential and commercial clients. We manage and handle every step of the process, including permits, rebates and credit applications.

Our professional team of highly trained civil and electric engineers design, develop and install solar electric and solar hot water applications. We're the Northwest's experts on solar installations, and our service commitment is second to none.

Call us today and discover the Sunergy difference.

SOLAR POWER

THE BEST INVESTMENT YOUR BUSINESS CAN MAKE TODAY

BUSINESS BENEFITS

Did you know? Oregon has implemented one of the most **business-friendly** solar incentive programs in the country! Here's how ***your*** business can benefit:

- ✓ **Save up to 100%** on your electric bill, based on the size of your system
- ✓ **Receive up to 90%** of the system costs through Federal and State incentives.
- ✓ **Increase profit and revenue** by re-selling your excess power to the utility at full retail value
- ✓ **Increase the value and equity** of your property without increasing your property taxes
- ✓ **Attract new, loyal customers** as you promote yourself as a "Green Business"
- ✓ **Stabilize your business** and protect your business by accurately predicting future energy costs

Great Finance Options Available! Contact us for information on Power Purchase Agreements, Tax Lease Options and Traditional Loans

- TIME LIMITED OFFER -

These valuable Federal and State business incentives expire at the end of 2008. Contact us now to maximize your benefit.

WHY SOLAR?

Solar power isn't just for the environment anymore: it's **smart business** and delivers **measurable financial benefits!**

For example, did you know that solar power delivers an incredibly **secure return on investment**, that solar electric systems are **guaranteed for quality** and require **extremely low maintenance?**

And of course, solar power is also a powerful and clear measure of your **social stewardship, community leadership** and **advanced ecological awareness**. By reducing your "carbon footprint," you can effectively **market your environment responsibility** to the growing number of consumers and clients who **demand ecological leadership** from their suppliers, vendors and partners.

So, "why solar?" It's a simple formula. **Clean, abundant** and **renewable** energy + **secure investment, low maintenance** and marketplace **eco-leadership** =

BENEFITS FOR YOUR BUSINESS,
BENEFITS FOR YOUR CUSTOMERS,
BENEFITS FOR YOUR COMMUNITY,
BENEFITS FOR OUR WORLD!
