Ribbon Cutting at Our New Long Island Office!

The attendance of these community leaders verified something that Pazer & Epstein, P.C., has known for years: we provide a very *important* service to the people of New York. In representing victims who have been injured through the failure of others, we fight for what's right and ensure that negligence is met with justice.

In addition to our focus on personal injury law, we're also known for our successful general legal work in matters such as: real estate, wills, general commercial transactions, contracts, and more. We look forward to serving you "face to face" in our new Long Island offices!

35 Years of Helping...and Counting

35 years is a long time. And for each of the last 35 years, Pazer & Epstein, P.C., has been applying the formula that has earned us our reputation as top achievers and legal leaders in the complex field of personal injury law. So what's the magic formula for our enduring success?

Well, it's a lot simpler than folks might realize. For 35 years - and counting - we work harder, smarter, and *better* to deliver the compensation that victims deserve. It may sound too simple to be true; but 35 years (and counting!) speaks for itself. We simply understand what it takes to succeed. It takes determination. Perseverance. Hard work.

And above all else: it takes a total commitment to delivering **real results** to clients who deserve the best in legal representation. After all, if we don't fight for their legal rights...who will? Here's to the *next* 35 years of delivering successful results for our clients, and of being leaders in our field.

"[Pazer & Epstein] has been so important to me as a Member of Congress."

- Congressman Steve Israel

"[Pazer & Epstein is] a number one class 'A' Firm."

- Huntington Town Supervisor Frank Petrone

DRIVER ALERT: Protect Yourself with Uninsured and Supplemental Underinsured Coverage!

Think you and your family are covered in case of an auto accident? Think again! Drivers without adequate **uninsured** and supplemental **underinsured motorist coverage** could be, as the old saying goes, *a disaster waiting to happen*.

Here's why: most drivers assume that their losses will be covered by the negligent driver's insurance. Yet this is *not* always the case! Drivers everywhere have to ask:

- What happens when the negligent driver who caused the injury doesn't *have* insurance?
- What happens in a hit-and-run crime, when the other driver vanishes?
- What happens when the negligent driver doesn't have *enough* coverage to cover your losses?

The legal answer to these questions may be that ***nobody pays***. If the driver who injured you isn't insured, or if it's a hit and run, then there may be **no coverage** for your suffering and other losses. The same may be true when the negligent driver doesn't have adequate insurance to cover your loss.

Obviously, this is terrifying news for drivers to learn after they've been injured by a negligent driver. Fortunately, you're learning it before the fact -- while there's still time to *do* something about it! To ensure that you and your family are protected *regardless* of the insurance status of the negligent driver or owner:

- ⇒ Obtain the highest amount of **Uninsured Motorist Insurance** that your insurance carrier offers.

This protects you and your family when the negligent driver is uninsured, or has fled the scene.

- ⇒ Obtain the highest amount of supplemental **Underinsured Motorist Insurance** that your insurance carrier offers.

This protects you and your family when the negligent driver isn't carrying enough insurance to cover your rightful injury claims.

*Topping up your **uninsured** and supplemental **underinsured** coverage helps protect you and your family.*

Pazer & Epstein, P.C., recommends that all drivers contact their insurance agent/broker, and obtain the highest possible amounts of uninsured motorist and supplemental underinsured motorist coverage. It's:

- ✓ extremely affordable
- ✓ very easy to add
- ✓ a highly effective way to protect you and your family
